

PROXIMITY DATA CENTRES

EDGE 4 CHESTER GATES

Proximity operates a rapidly growing network of regional edge data centres which allow clients to locate their data services close to local markets.

The data centres are built to the highest standards and offer world class colocation facilities with great connectivity options.

All of our data centres come with simple contracting and full UK-based support, transition services and onboarding to make sure your data operations keep running smoothly.

Our Chester Gates data centre delivers secure edge data hosting with fast connectivity, low latency and reduced transit costs for the North West of the UK.

The data centre is conveniently located between Chester and Manchester and is easily accessible from the M56. It has excellent colocation services and offers secure business recovery services.
