PROXIMITY DATA CENTRES

EDGE 7
SWINDON

Proximity operates a rapidly growing network of regional edge data centres which allow clients to locate their data services close to local markets.

The data centres are built to the highest standards and offer world class colocation facilities with great connectivity options.

All of our data centres come with simple contracting and full UK-based support, transition services and onboarding to make sure your data operations keep running smoothly.

Proximity Edge 7 at Swindon is ideally located to support businesses on the M4 corridor. It is the ideal solution for companies seeking to escape the congested data centre conurbations of Slough and West London. Edge 7 has capacity for 2,000 racks of IT equipment
