

PROXIMITY DATA CENTRES

EDGE 3 BRIDGEND

Proximity operates a rapidly growing network of regional edge data centres which allow clients to locate their data services close to local markets.

The data centres are built to the highest standards and offer world class colocation facilities with great connectivity options.

All of our data centres come with simple contracting and full UK-based support, transition services and onboarding to make sure your data operations keep running smoothly.

Our Bridgend data centre delivers secure edge data hosting with fast connectivity, low latency and reduced transit costs for South Wales.

The data centre is situated close to the M4 between Cardiff and Swansea and has excellent colocation services for this fast growing region. The data centre offers secure business recovery services as well as colocation.
